

Horizon Honors Primary School News

May 2010

A NOTE FROM PRINCIPAL LAURA WANSTREET

The end of the school year is a time of reflection and a time of anticipation as we look forward to a new school year bringing fresh challenges. Whether your child is going to be the younger student in the multi-age group or preparing to become the older leader – the challenges of a new school year are exciting.

The 2009-2010 school year at HCLC has had so many positive, memorable moments. This year the Summatives have been some of the finest I have witnessed: the science of wagon trains in 1-2, the creation of a botanical garden in 3-4, and the Kindergarten science center to name a few. Primary School students have developed as writers and continue to impress me with their focus in all areas of academics. Students found their voices (and acting abilities) during music class and explored new technologies in the computer lab. They developed their Spanish vocabulary and explored physical activities ranging from gymnastics and cup stacking to bowling and lacrosse.

None of this can happen without committed and enthusiastic educators who are willing to work so hard and give so freely to provide so many opportunities for our students to take on different challenges and enjoy new experiences. I consider myself extremely lucky to work with a staff in every grade level and content area who see themselves as so much more than classroom teachers and parents who are so committed to their children's education.

Continuing with the theme of parental support, I thank you all for your continued presence at HCLC – in the classrooms, in the lunch program, Art Masterpiece, field trips, reading partners, ILP Conferences, drop off/pick up... I have even seen families of elementary students attending high school events, not because they have a high school student, but because they want to be part of the community. I continue to enlist your help in ensuring that our students review and follow our published dress code and code of conduct. Above all, I want HCLC students to be proud of their school and uphold the values of our community. They need the support of the adults in their lives to encourage and praise them.

Thank you for your continued support and for being part of our community.

Laura Wanstreet
laura.wanstreet@horizonclc.org

STUDENT PICK UP REMINDER

Only students who are waiting for the ALEX bus or the Metro Bus may wait at the northeast corner of 48th St. and Frye Road after school. This is not a parent pick-up location or a parking zone and the city of Phoenix can ticket your vehicle. The area is clearly marked as a "no parking" zone. The designated parent pick-up locations are in front of the school (in the parking lot) and in the church parking lot behind the school. Also, please remember it is important not to block handicapped spaces when dropping off or picking up your student in our parking lot. Thank you!

Upcoming Events

Grades 1-4 Bowling Field Trip:
May 3 - Mrs. Bernstein
May 7 - Mrs. Smith

Latin America Celebration:
May 7

Transition Lunch for 4th to 5th
Grade:
May 13

4th Grade Parents Human
Development Meeting:
May 13 @ 3:30 p.m. in 3-4 Black

BOGO Book Fair:
May 17-20, 7:45 a.m. - 4 p.m. in
Media Center

Kindergarten Summative:
May 21

Memorial Day (NO SCHOOL):
May 31

3-4 Summative:
June 3

1-2 Summative:
June 4

Field Day:
June 7

Water Day:
June 8

Last Day of School:
June 9

ILP Conferences:
June 10 -11

School Values Schedule

Week of May 3: Initiative
Week of May 10: Courage
Week of May 17:
Respect for Others
Week of May 24: Teamwork
Week of June 1:
Self-Discipline
Week of June 7:
Commitment to Family

LATIN AMERICAN DAY

We will be celebrating the culture of Latin America on Friday, May 7th with a music and dance performance. We are asking students to dress in Latin American dress or the colors red, green and white on that day. We will also be having a taste of the culture by offering paletas for sale at recess for \$1 from vendors. The paletas are a type of popsicle that are made with fruit juice and others that use a milk base. It is going to be a great day of celebration, so please feel free to stop by and join us!

What's Happening in 3-4?

With the end of the school year approaching fast our students have been very busy. In Project Group, students have started to design and plan a resort that could be built anywhere in the world. They had to develop a theme for their resorts and different amenities they would like to offer their guests. We recently had a structural engineer come in and talk to the students about the importance of blueprints and how they are used in the development of a structure. They will be challenged with a "critical incident" that will require them to work together to solve a real world problem. Students will be learning about how to draw things to

scale in math. They will then be responsible for drawing blueprints of their resort to scale. In language, this quarter they have been devouring literature bingo books and creating and presenting amazing projects! They are all working away at their research papers in writing. Ask them about the natural disaster they researched. We have had a fabulous year together. The teachers will be sad but proud to see our 4th graders move up to 5th grade. However, we know they are ready for the challenge. We look forward to welcoming the incoming 3rd graders and continuing with our current 3rd graders (they are ready to be the leaders). Have a safe and peaceful summer.

END OF THE SCHOOL YEAR

Even though we are approaching the end of the school year, things are certainly not winding down. As a matter of fact, for many of us, this is the time of year that things begin to speed up. It seems like every time we turn around there is another year-end event to prepare for or attend and the academic and social rigor of school continues up until the last day of the school year. All of this can contribute to a sense of overload if we are not careful. Children experience a mix of emotions at the end of a school year that range from excitement for summer break and the next school year to anxiousness about leaving the last grade. Here are a few things to keep in mind:

- Prioritize and be selective with after school activities
- Make sure children get plenty of rest and healthy food – always important, but challenging when we are busy
- Keep to a regular schedule – or as close to "regular" as possible – routine is a comfort in times of change
- Continue to take time to read together each day
- Treasure each moment with your child – I see them growing up so fast!

FOURTH GRADE HUMAN GROWTH AND DEVELOPMENT

This year our 4th grade health curriculum will include a Human Growth and Development component. This information will be presented during your child's PE/Health class beginning May 24th-27th. There will be a parent informational meeting on Thursday, May 13th at 3:30 p.m. in the 3-4 Black Classroom if you would like more information. In order for your child to participate, please complete the permission slip that will be sent home in their folders on May 13th. All permission slips will be due on Friday, May 21st.

INTERNET SAFETY

We would like to share a valuable resource with you regarding Internet and technology safety. This particular site has fun games and programs for your younger students to utilize, along with safety presentations for your entire family. Please take some time to use the following links to download these presentations to share with your family. There is a special parent presentation, along with presentations for your younger students that is geared towards kindergarten through fourth grade. The presentations are emailed to you so that you can download them and use them as often as you like. Please take some time in the next few months or over your break to raise your own awareness and talk with your family to come up with a plan to utilize technology properly and safely.

WATER DAY

HCLC students will have the opportunity to participate in Water Day on June 8th. This is a day we all go to the field to participate in some fun water games. Our Water Day schedule includes 20 minutes for changing and is as follows:

Grades 3-4: 8:40 - 9:55 a.m.

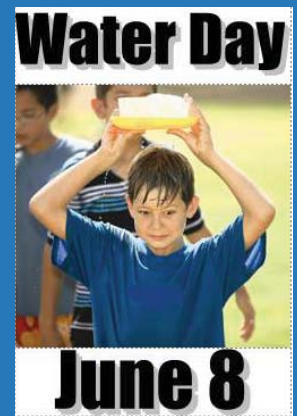

Grades 1-2: 10:40 - 11:50 a.m.

Kindergarten: 2 - 2:40 p.m.

We encourage students to bring a water bottle, towel, and a change of clothing. Students will not be allowed to wear white or other inappropriate clothing. Other arrangements will be made for students dressed inappropriately.

If you are a parent with some free time and you don't mind getting a little wet, we invite you to join in the fun! We need volunteers to help us fill buckets, help run games, and monitor outside of changing areas. Please contact your classroom parent coordinator if you would like to help out.

For more information or questions, please feel free to contact your child's physical education teacher at (480) 659-3100 or send them an e-mail.

MEDIA CENTER NEWS

- This quarter we will have a buy one, get one free book fair to say "thank you" for your continued support! Every single item at the book fair will be buy one, get one free! Please join us any time May 17-20, from 7:45 a.m. to 4 p.m. This will be a great time to stock up for summer reading!

- Starting May 1st, Scholastic will kick off their Summer Reading Program. As you may know, last year HCLC helped break the world record for most minutes read and we were listed in the Scholastic Book of World Records 2010. This year we would like to participate again! It is simple and does not cost anything! You simply log on to the Web site: www.scholastic.com/summerreading. Sign up, find our school, read a book and log your minutes read. Check back often to log minutes, play games, fun reading challenges (where you can earn bonus points), contests and age appropriate book lists for parents, as well.

CAMP HORIZON!

Summer will be here before you know it, so plan ahead and be prepared! We would love for you to include Club Horizon as part of your summer break planning. Here at Club Horizon the children are our number one priority, and we want to make the best of their time away from the classroom. We are committed to making this summer break safe, as well as fun for all of your children and our staff. This summer break is going to be a great opportunity for your children to interact with their friends, while allowing them the chance to make new friends.

The summer break is going to be quite warm, so in an effort to keep your kids safe from the sun, our field trips will be mostly indoors. We will have the opportunity to cool ourselves off by getting wet on our water days, which will be held under our wonderful shade canopy in the Elementary Courtyard. Aside from staying out of the direct sunlight, your children will have the enjoyment of an inflatable water slide, along with snow cones to keep them cool from the summer heat. In addition to our amazing field trips, your children will have the chance to do arts and crafts, play with board games, and use different areas of HCLC for indoor sports and games.

We look forward to starting the summer off right, so come join us and make this summer a memorable one. The rates start at \$30 per day if scheduled in advance, and \$35 per day if payment is received after the due date. We are open from 6:15 a.m. to 6 p.m. Included in the daily fee is a morning and afternoon snack, as well as supplies for arts and crafts. Club Horizon wishes you a fun and safe summer break, and hopefully you can spend some of that time with us. If you have any further questions about our summer program, or Club Horizon in general, please feel free to contact Club Horizon Director Sal Aguilar at sal.aguilar@horizonclc.org.
